Australia's Most Powerful XR8  
CAPA's XR8 using the Flash Tuner to produce 1000HP.

Australia's Fastest XR6 Turbo  
CAPA Flash Tuned, 10.873 @ 129.31MPH

**CAPA Flash Tuner** is the complete stealth programming system to unlock the hidden power potential of your BA Falcon or Territory. Add up to 50 extra kilowatts of grunt, improve fuel economy, and firm up the auto transmission, without cutting and soldering wires or permanently altering your car. CAPA Flash Tuner makes your Ford or FPV a dead-set performer with ease. Heres how.....

1. Plug the flash tuner into the diagnostics port of your car (under the fuse panel).

2. With the key off, use the 'SELECT' button to choose the program.

3. With the LED lit up on the desired program, hold the program button for 3 seconds.

4. While the LEDs are flashing, turn the ignition to on.

5. Once the lights stop flashing, the programming is done. Turn the key off and remove the unit.

## CAPA BONUS BUYS WITH EVERY FLASH TUNER
