

# CAPA Ford Flash Data Logger

CAPA's Ford Flash Data Logger is suitable for AU Falcons, BA-BF Falcons, Territory & American OBD-II based Fords. It allows you to view live data on the handset or log data directly to a PC using a USB Cable.

CAPA's Data Logger is essential for monitoring real time and historic sensor data. The gathered data can be used to tweak your fuel trims at idle and part throttle. It is also helpful for wide open throttle tuning.

With CAPA's Data logger, you can also Read, Clear and Diagnose DTC Trouble Codes and Check Engine Lights with ease.

## Package Includes

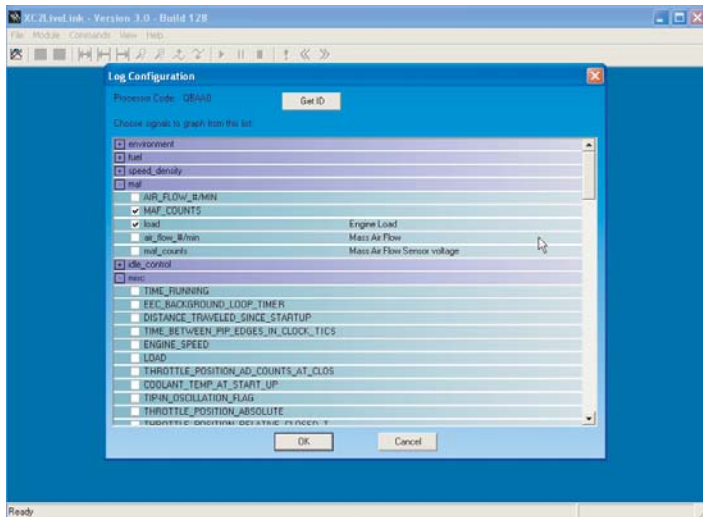

CAPA Ford Flash Data Logger  
 USB Cable  
 LiveLink Installation CD

## LiveLink Minimum Requirements

CD or DVD Rom drive  
 1 USB Ports
