

FORD FLASH 2

FORD FLASH2

Overview

CAPA's Ford Flash 2 allows you to replace the factory program of your AU - BF Falcon and Territory with one of 3 custom programs. The factory program is stored on the FF2 so the vehicle can be put back to standard at any time. There is no limit to the amount of times you can switch between performance and factory tunes. FF2 also features user adjustability of custom programs, in built datalogging and the ability to read and clear diagnostic trouble codes.

- Can Be Pre-Programmed with up to 3 tune files by your local Dealer*
- Data Logging via SCT's Live Link Software
- Read / Clear & Diagnose DTC Trouble Codes / Check Engine Lights with ease

CAPA's FF2 is designed for Custom Tuning applications and for use with our Advantage 3.0 Custom Tuning Software by our network of CAPA dealers. This tool offers our network of Certified Dealers a reliable and quick flash tool for your Ford Custom Tuning requirements. Tool stores up to 3 Custom Tune files while storing the factory tune.

*Number of pre-programmed tune files may vary with vehicle models.

The Ford Flash 2 Features COMPLETE User Adjustability as set by your Dealer

Advantage III Software

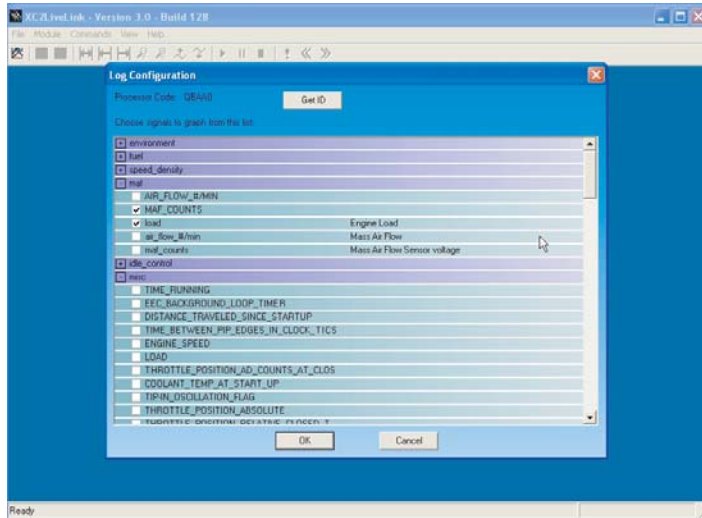

Designed for workshops and tuning shops, Advantage III gives total flexibility to produce custom programs on a laptop / pc. Programs can be loaded into Flash Tuners and Eliminator Switch Chips. This program is Windows Based and has a help screen giving the user information on all tuning parameters. Advantage software takes the guess work out of custom tuning.

FORD FLASH 2

The Ford Flash 2 Features Built-In Data Logging

The FF2 flash tool features Live High Speed Data Logging built in. Now you can data log your all of your vehicles PCM parameters and view them on your Windows based computer using SCT's Live Link Software. The Live Link software package as available FREE to all SCT customers in the Downloads section of our website.

- Once the FF2 has been used to program a vehicle, it will be VIN locked to that particular vehicle until the programming has been returned to the stock setting.
- The FF2 can store up to 3 custom programs at any one time, loading to and from the flash tuner box can be done an infinite amount of times.
- The FF2 can be changed over to a new vehicle, it must be cleared using software available from CAPA. This process can only be performed 5 times. Then it must go back to SCT / USA for a Reset.
- Software will be available to download original program from vehicle processor if code has not already been made public. This software must be requested.
- General software files generated by CAPA will become available to all dealers upon request.
- CAPA Tune Files are also available as part of the FF2 for retail sale. This retail product is also available to dealers.
