

GM XCALIBRATOR 2

Overview

Release Date: January 2007.

CAPA's Xcalibrator 2 allows you to replace the factory program of your VT-VY 5.7L V8 or Pre-2006 VZ 5.7L V8 with one of 3 custom programs. The factory program is stored on the XCal2 so the vehicle can be put back to standard at any time. There is no limit to the amount of times you can switch between performance and factory tunes. XCal2 also features user adjustability of custom programs, in built datalogging and the ability to read and clear diagnostic trouble codes.

The SCT XCalibrator 2 GM Custom Tuning Flash Device is designed to be used in Custom Tuning applications. It is programmed with our Advantage 3.0 Custom Tuning Software by our network of SCT dealers. This tool offers our network of Certified SCT Dealers a reliable and quick flash tool for all of their GM Custom Tuning requirements. Tool stores up to 3 Custom Tune files while storing the factory tune.

- The XC2 GM will ELIMINATE sending PCM's back and forth between your EFI Tuner. The customer can update his XC2 GM handheld tuner via email / free software if tune changes are needed.
- Pre-Programmed with up to 3 tune files by your local SCT Custom Tuning Dealer
- Read / Clear & Diagnose DTC Trouble Codes / Check Engine Lights with ease
- Stock and custom tune files are saved on the device and can be reloaded at any time
- 30 second reflash time (After initial storing of the factory calibration is complete)
- Built in error recovery
- Datalogging with 2 0-5v analog inputs (Coming Fall 2006)
- Flashes direct to the PCM. The days of sending your PCM back and forth for tuning ARE OVER!

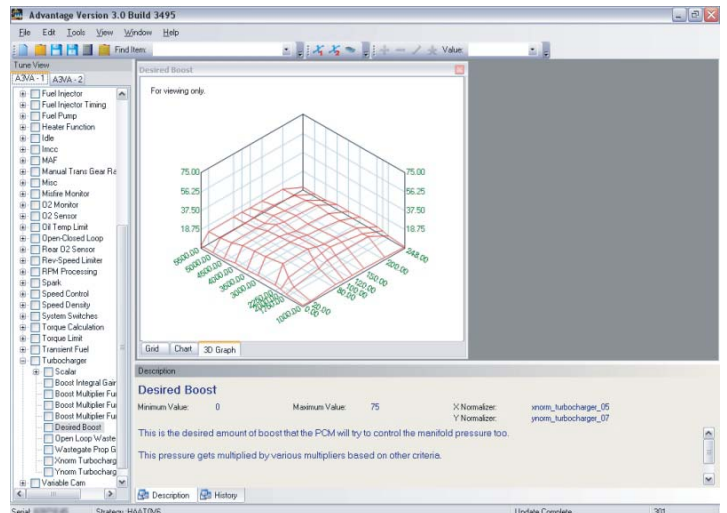

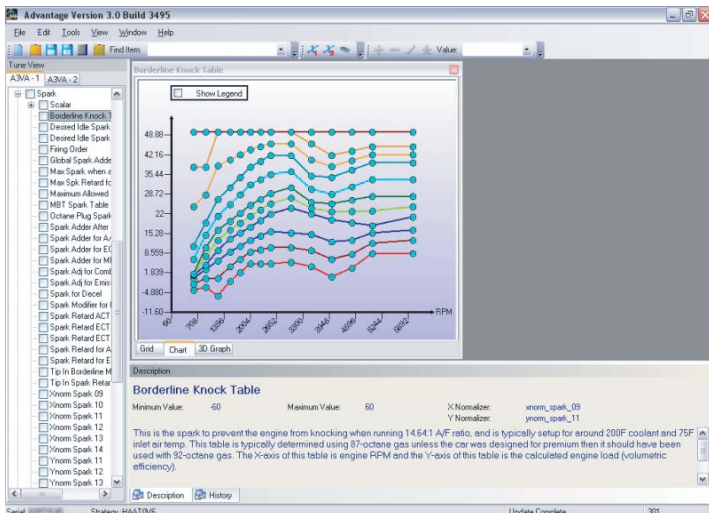

Package Includes

- Xcalibrator 2
- Installation Instructions

Advantage III Software

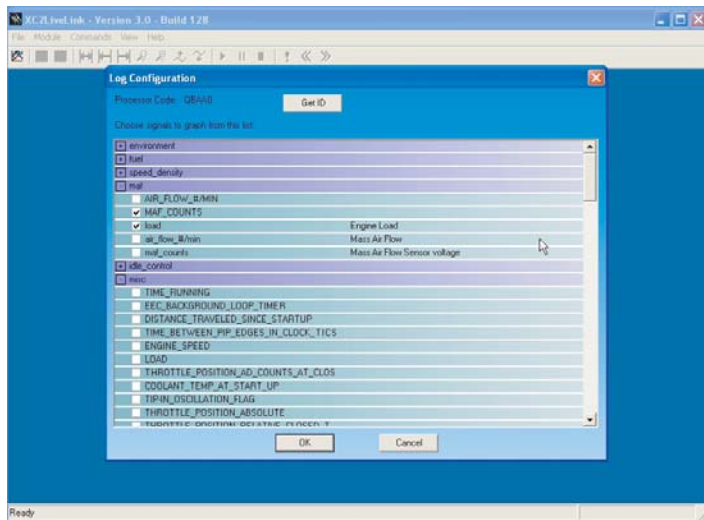

Designed for workshops and tuning shops, Advantage III gives total flexibility to produce custom programs on a laptop / pc. Programs can be loaded into Flash Tuners and Eliminator Switch Chips. This program is Windows Based and has a help screen giving the user information on all tuning parameters. Advantage software takes the guess work out of custom tuning.

GM XCALIBRATOR 2

The XCalibrator 2 Flash Tool Features Built-In Data Logging

The XCalibrator 2 flash tool features Live High Speed Data Logging built in. Now you can data log your all of your vehicles PCM parameters and view them on your Windows based computer using SCT's Live Link Software. The Live Link software package as available FREE to all SCT customers in the Downloads section of our website. Live Link for GM applications will be available the Fall 2006. SCT recommends using Autotap for your datalogging needs until the free Live Link GM update is available.

- Once the Xcalibrator 2 has been used to program a vehicle, it will be VIN locked to that particular vehicle until the programming has been returned to the stock setting.
- The Flash Tuner Box can store up to 3 custom programs at any one time, loading to and from the flash tuner box can be done an infinite amount of times.
- The flash tuner can be changed over to a new vehicle, it must be cleared using software available from CAPA. This process can only be performed 5 times. Then it must go back to SCT / USA for a Reset.
- Software will be available to download original program from vehicle processor if code has not already been made public. This software must be requested.
- General software files generated by CAPA will become available to all dealers upon request.
- CAPA Tune Files are also available as part of the Flash Tuner for retail sale. This retail product is also available to dealers.
